1 P R O C E E D I N G S

2 JUDGE STIRMER: Good morning. Mr. Shook, do you have a  
3 witness present at this time?

4 MR. SHOOK: We do, Your Honor, but we also have a  
5 preliminary matter.

6 JUDGE STIRMER: Very well.

7 MR. SHOOK: Mr. Dunne?

8 MR. DUNNE: Look at the --

9 MR. SHOOK: Stipulation?

10 MR. DUNNE: -- stipulation. Your Honor, the -- Mass-  
11 Media Bureau has asked us to stipulate to the fact that the  
12 Highway Patrol -- there's been some testimony concerning the  
13 Highway Patrol station and the Highway Patrol two-way radio,  
14 two-way radio station. We've entered into a stipulation that  
15 the two-way radio station is authorized to operate up to 15  
16 W --

17 MR. SHOOK: 15, 15.

18 MR. DUNNE: -- kW, excuse me, but in fact operates at 6  
19 kW and has for some time.

20 JUDGE STIRMER: Very well, that stipulation is  
21 accepted.

22 MR. SHOOK: Okay. Your Honor, I would call Craig  
23 Meador.

24 JUDGE STIRMER: Mr. Meador, would you please come  
25 forward and be sworn?

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 JUDGE STIRMER: Would you please have a seat, sir?  
2 Now, Mr. Meador, your written, sworn testimony has been  
3 received in evidence and you have been requested for cross-  
4 examination and that's the reason you are here today.

5 THE WITNESS: Okay.

6 JUDGE STIRMER: Mr. Dunne, you may proceed.

7 MR. DUNNE: Thank you, Your Honor.

8 Whereupon,

9 CRAIG MEADOR

10 having first been duly sworn, was called as a witness herein  
11 and was examined and testified as follows:

12 CROSS-EXAMINATION

13 BY MR. DUNNE:

14 Q Good morning, good morning.

15 A Good morning, sir. My name is Joseph Dunne. I  
16 represent Calvary Educational Broadcasting in this case. I'm  
17 going to asking you some questions concerning your testimony  
18 that you've submitted here under oath. And before we begin I  
19 want to let you know that if you can't hear my question or  
20 don't understand my question, please let us know. Our purpose  
21 here is to get accurate and truthful testimony from you and if  
22 there's anything that prevents you from doing that please let  
23 us know, we'll rephrase the question or speak up or whatever  
24 needs to be done.

25 A Fine.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 Q All right. Mr. Meador, you have your testimony in  
2 front of you, do you not?

3 A Yes, sir, I do.

4 Q And you're looking at it now?

5 A Yes, sir.

6 Q Okay. Your testimony is that you were at the KOKS  
7 transmitter site to do some engineering of the satellite  
8 system. Is that correct?

9 A Yes, sir.

10 Q Just answer my question, Mr. Meador, please.

11 A Yes.

12 Q Will -- you know, makes it easier on everybody.

13 A Okay.

14 Q And when was that? It says February or March of 1989.  
15 Is that correct?

16 A That's correct, sir.

17 Q How do you know that?

18 A I'm -- really, that's a close guess at that time  
19 period. It's -- I wasn't 100 percent sure on the, the day and  
20 the date but that's very close.

21 Q Okay. Would it -- well, are you fairly sure that it  
22 was -- are you sure that was after KOKS went on the air?

23 A Yes, I'm positive of that fact.

24 Q Okay, and are you sure February or March -- what's the  
25 -- can you -- by reference to the seasons, were the --

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 A Yes, sir.

2 Q -- leaves on the trees?

3 A No, it was, it was cold out.

4 Q It was cold outside?

5 A Um-hum.

6 Q So, it was winter then to the best of your

7 recollection?

8 A Yes.

9 Q And what were you doing? You said you were doing some

10 engineering on the satellite system?

11 A Yes, sir, I was working on the satellite dish that's

12 located adjacent to the transmitter site.

13 Q Okay. It's located adjacent to the transmitter site?

14 A Yes, sir.

15 Q Okay, and what were you doing on the satellite system?

16 A I was just repairing a system that hooked to a

17 residence that's adjacent to the system.

18 Q Okay. When you were say you were repairing, what were

19 you doing specifically, if you recall?

20 A I replaced a voltage regulator and a down converter for

21 a Avcom II receiver -- satellite receiver.

22 Q Okay, and why did you need to do that, do you --

23 A Lightening, apparently, some, some surge of some type

24 had, had damaged the system or some, some surge. I say

25 lightening, I'm guessing on that fact. Some surge of some

## FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 type.

2 Q Okay.

3 A The system had been out for a little while and they had  
4 called me and so why it was out I had no, no idea, it just --

5 Q Okay, but it was due so surge to the best of your  
6 recollection?

7 A Evidently, yes, sir.

8 Q The voltage regulator was burned out and that's  
9 generally --

10 A Correct.

11 Q -- in the business indicates that there was some sort  
12 of electrical surge?

13 A Exactly.

14 Q And that would be consistent with a lightening strike?

15 A Correct.

16 Q Okay. Now, you said the satellite system is adjacent  
17 to the transmitter building. Is that correct?

18 A Yes, sir, that's correct.

19 Q When you say adjacent, your, your testimony here is  
20 close, adjacent. What do you mean by that? How close?

21 A Well, if I can give you a reference, from here to that  
22 back wall, about 40 yards, approximately, yeah.

23 Q Thirty, thirty yards?

24 A Approximately, yeah.

25 Q And how far is the house from -- you say the house is

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 adjacent; how far is the house?

2 A Yeah, it's some distance, quite some distance.

3 Q Okay. So, it's 30 yards to the transmitter building?

4 A From the satellite dish, that's correct, um-hum.

5 Q Okay. So, it's, it's a distance that doesn't  
6 facilitate an intimate conversation; I mean, you can't talk --

7 A True.

8 Q -- to somebody in the transmitter building when you're  
9 at the, the satellite dish? Is that correct?

10 A Repeat that now.

11 Q You can't have a, a normal conversation with someone --

12 A Oh, sure, yes, no problem. The satellite dish is very  
13 close to the transmitter shack.

14 Q Well, you just testified that it's about 30 yards away.  
15 Can you have a conversation with somebody in the back room  
16 easily?

17 A I can.

18 Q Okay. Okay. You installed the satellite dish and your  
19 testimony says you installed this one. Is that correct?

20 A Originally, yes, sir.

21 Q And your testimony says it was '87 or early-'88.  
22 That --

23 A That's approximate also, but it was for former  
24 residents.

25 Q Okay. Well, can you give us an idea about how long it

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 was before you -- between when you installed it and when you  
2 went back out to do the work you're testifying to here?

3 A Not exactly. I've been there several times prior to  
4 the -- this occasion here. There was another house located  
5 approximately where the -- shack is now that had burned and  
6 the new residence was built and then this satellite system was  
7 installed approximately to -- close to the time when the house  
8 was -- the new house was built.

9 Q Obviously, from the satellite system is there a line or  
10 some sort of cable that goes from the satellite system into  
11 the house?

12 A That's right.

13 Q Okay. Do you recall when you were there if there was a  
14 line or a cable that went from the transmitter shack to the  
15 house?

16 A No, sir, don't think so.

17 Q Okay. Mr. Stewart invited you to look at the  
18 transmitter site and the equipment inside. That's your  
19 testimony. Is that correct?

20 A (No audible response.)

21 Q Why don't you describe for us what exactly what he did,  
22 if you recall?

23 A Like I say, I was at the satellite dish working and he  
24 was in the transmitter shack and I talked to him said -- you  
25 know, told him what was wrong with the satellite system. He

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 asked me if I'd like to take a look at his new equipment that  
2 he had there. I mentioned, you know, something about I knew  
3 his station was on the air so he invited me to take a look.

4 Q Okay, and you went in the transmitter shack?

5 A That's right.

6 Q Okay. It says you noticed the meter reading. Where --  
7 as you walk in the transmitter shack, can you describe the  
8 physical characteristics of the building?

9 A Yes, sir. Small building, I'd say 25' by 25', roughly,  
10 guessing. And the transmitter and the power packs all right  
11 there as soon as you walk through the door.

12 Q Okay, and you say "I noticed the, the meter reading."

13 A Um-hum.

14 Q Okay. You noticed the meters on the transmitter?

15 A Sure did.

16 Q Physically, where were they from where you -- as you  
17 come in the door where are the meters?

18 A Right along the top of the transmitter, right -- you  
19 know, transmitter resembles a refrigerator --

20 Q Okay.

21 A -- a big refrigerator like them big double-door  
22 refrigerator with the power packs along the side.

23 Q Okay, and it says "The meter reading for the  
24 transmitter was at peak."

25 A Um-hum.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 Q Do you recall; would you say 120% or 125%?

2 A That's approximately, yes, sir, over 100%. I noticed  
3 the reading to be in excess of 100%.

4 Q Okay. You don't have any specific recollection whether  
5 it was 120% or --

6 A 115, 120, 125%, somewhere in that area. I noticed that  
7 it was in excess is the reason that, you know, I mentioned it  
8 or, or chances are I would never said anything, that it'd been  
9 running, you know, where it's supposed to run.

10 Q Okay. You mentioned this fact to Mr. Stewart?

11 A Yes, sir, I did.

12 Q And what -- you said that he adjusted it down to what?  
13 Do you recall?

14 A He ran it down below it's, it's legal limit at that  
15 point and I guess he was just demonstrating that maybe he knew  
16 how to adjust the power, possibly. I'm --

17 Q He didn't tell you why; he just did it, right?

18 A Didn't tell me why, just --

19 Q There was no conversation at this point?

20 A Excuse me?

21 Q There was no conversation at this point --

22 A No, sir, I just noticed --

23 Q -- no one --

24 A -- that -- noticed -- told Don that I thought that it  
25 was running a little hot and he, he ran it down some and then

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 before we left I noticed that he left it still in just a --  
2 you know, in excess of 100%. And that's the only reason that  
3 I --

4 Q Okay, excuse me. Let's, let's stop just a minute. He,  
5 he -- while you were there he ran it down?

6 A Correct.

7 Q That is your testimony?

8 A Correct.

9 Q And then while you were there he ran it back up?

10 A Right before I left I noticed him using the, the power  
11 level adjustment and moving it back from the, the -- where he  
12 had moved it down to back up, you know.

13 Q Okay, and, and when you left your testimony is that he  
14 left it in excess --

15 A Of 100%.

16 Q -- of 100%?

17 A That is correct.

18 Q Your testimony is 115 or 120%? Is that  
19 your --

20 A Approximately, yes, sir, somewhere in that area.

21 Q But there no testimony -- there was no conversation you  
22 had with Mr. Stewart about why he did that? You --

23 A Well, yes, sir, I, I mentioned to him -- I asked him  
24 why he was doing it so hot and his statement was to me, he  
25 quoted that he said he was trying to reach Memphis.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 Q Okay. Mr. Meador, do you work for any, any --  
2 obviously you worked on satellite systems. Is that correct?

3 A Yes, sir.

4 Q Do you have any experience in working with radio  
5 station equipment, for example, transmitters?

6 A Some.

7 Q Okay. So, when you, you -- when you talked in you had  
8 some idea of where the --

9 A Oh, yes --

10 Q -- meter would have been?

11 A -- yes, I, I knew, I knew what was going on, yeah.

12 Q Okay.

13 A I knew what the legal limits of the transmitter were  
14 too, also. To the best of my knowledge is 5% above and 10%  
15 below.

16 Q Well, whatever -- it was your observation that it was  
17 running over power?

18 A Exactly, exactly. That's probably -- that's why I  
19 mentioned it, otherwise I probably would have never said  
20 anything.

21 Q Okay. In your experience dealing with transmitter  
22 equipment, what are the effects if any of running a  
23 transmitter that high over power?

24 A The effects?

25 Q Um-hum.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 A Can you explain what you mean by the effects?

2 Q Well, does -- for example, does running a -- assuming  
3 of course that the transmitter doesn't shut off for some  
4 reason, does it have any effect on the tubes, for example?

5 A Maybe shorten their life some, possibly, yes. The only  
6 other effect that I actually know of, Mr. Dunne, would be an  
7 increased range pattern.

8 Q No, I'm talking about the effects on the physical,  
9 physical plant of the, the transmitter.

10 A No, sir.

11 Q But you did testify that it's likely that running over  
12 power would shorten tube life?

13 A Possibly.

14 Q Tubes are fairly expensive items, aren't they?

15 A Yes, sir, very.

16 Q Now, do you know, Mr. Meador, if most modern  
17 transmitters have a feature that shuts the transmitter off  
18 after it's been running over power or a certain amount of  
19 time?

20 MR. SHOOK: I --

21 MR. DUNNE: Of his personal knowledge.

22 MR. SHOOK: Your Honor, I would, I would ask for a  
23 clarification relative to the term modern.

24 JUDGE STIRMER: Ask him with respect to the  
25 transmitter, if he knows, that was in existence at the

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 transmitter site that he looked at. I mean, I don't want a  
2 general question, Mr. Dunne.

3 MR. DUNNE: Okay.

4 JUDGE STIRMER: I don't think that aids the record.

5 BY MR. DUNNE:

6 Q Okay. Do you, do you know if the transmitter that you  
7 looked at -- was it a new transmitter?

8 A Yes, sir, it was a 35,000 W Harris transmitter.

9 Q And to your knowledge it was a new transmitter?

10 A To my knowledge, yeah, appeared to be.

11 Q And do you know if a Harris -- a brand new Harris  
12 transmitter at least in 1988 would have a feature that would  
13 cut the transmitter off if it ran over power for, for a long  
14 period of time?

15 A No, sir, not to my knowledge.

16 Q Let's get your testimony clear, Mr. Meador. That is,  
17 you know that it doesn't have such a feature or you just don't  
18 know?

19 A I'm not sure that it has a, a feature that would turn  
20 it off if it was to run over power. I don't know, I'm not  
21 sure. I wouldn't know why it would. I mean, that's  
22 speculation.

23 Q Okay. Just, just -- we don't want, want you to  
24 speculate; just, just your testimony --

25 A Fine.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 Q -- of your own personal knowledge --  
2 JUDGE STIRMER: -- answering the question.  
3 THE WITNESS: Yes, sir.  
4 BY MR. DUNNE:  
5 Q Mr. Meador, do you recall now who called you to, to ask  
6 you to come out to the house to do the work on the satellite?  
7 A Yes, sir, Don Stewart.  
8 Q It was Mr. Stewart -- that called you come to the  
9 house?  
10 A Yes, sir.  
11 Q Was Mrs. Stewart in evidence at all?  
12 A I don't recall.  
13 Q You know who Mrs. Stewart is --  
14 A Yes. All I recall is Mr. Stewart and, and a child, is  
15 all I know.  
16 Q There was a child there?  
17 A In, in the residence, yes.  
18 Q And did you know who that child is?  
19 A No, sir, I don't.  
20 Q There was on one at -- while you were there working on  
21 the -- the satellite system or while you were in the  
22 transmitter building with Mr. Stewart there was no one else  
23 there. Is that your testimony?  
24 A Just the two of us.  
25 Q Just the two of you. Is it your testimony you did not

## FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 see Mrs. Stewart while you were out, out working on the  
2 satellite system?

3 A She was not out, outside of the residence and I, I  
4 don't really recall whether she was inside the residence.

5 Q Well, the, the question was: do you recall seeing her,  
6 Mr. Meador, while you were working on the satellite system?

7 A No, sir, no.

8 Q Mr. Meador, thank you, I have no further questions of  
9 you.

10 JUDGE STIRMER: Let me ask you several questions, Mr.  
11 Meador.

12 THE WITNESS: Yes, sir.

13 JUDGE STIRMER: Look at your testimony.

14 THE WITNESS: Okay.

15 JUDGE STIRMER: Now, you say that you have installed a  
16 satellite system in late-'87 or early-'88 before the house was  
17 owned by the Stewarts?

18 THE WITNESS: Yes, sir.

19 JUDGE STIRMER: Do you know when the Stewarts purchased  
20 the house?

21 THE WITNESS: I'm not sure of that sir, no.

22 JUDGE STIRMER: What makes you believe that you  
23 installed this system in '87 or '88 before the house was owned  
24 by the Stewarts?

25 THE WITNESS: I installed the satellite before they

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 owned it, but I'm not clear on the date that I installed the  
2 satellite system.

3 JUDGE STIRMER: So, this date that you have in here of  
4 '87 or early-'88 may not be correct?

5 THE WITNESS: Possibly not; I'm not positive on the  
6 date that I installed the system.

7 JUDGE STIRMER: But you installed it before the  
8 Stewarts became the owners of that property?

9 THE WITNESS: Yes, sir, that's right. The gentleman  
10 that I worked with owned the property at that time and he sold  
11 it to, to the Stewarts.

12 JUDGE STIRMER: And you don't recall what date that  
13 was?

14 THE WITNESS: Not exactly, no, sir.

15 JUDGE STIRMER: All right. Redirect, Mr. --

16 MR. DUNNE: Mr. -- may I have one further question  
17 following-up on your questioning?

18 JUDGE STIRMER: Very well.

19 BY MR. DUNNE:

20 Q You're not clear on the date that the, that the  
21 satellite was installed -- is that your testimony, you just  
22 told that to Your Honor?

23 A That's right, I'm not positive on the date I installed  
24 the satellite.

25 Q Okay. Are you as, as, as clear on the date that you

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 worked on the satellite system?

2 A Yes, sir.

3 Q Thank you.

4 REDIRECT EXAMINATION

5 BY MR. SHOOK:

6 Q I think to follow-up on that last question, in terms of  
7 understanding what was actually asked of you: do you have a  
8 relatively clear recollection now that when you were at the  
9 Stewarts to do the work that is described in your testimony  
10 that it was sometime in early-1989?

11 A Yes, sir, I'm clear on that fact.

12 Q Now, what is it that leads you to believe -- leads you  
13 to testify that it was in early-1989

14 A There was not long after the station had one on the air  
15 and I noticed -- and I remember it being cold out, you know,  
16 winterish.

17 Q Now, you do know Don Stewart, right?

18 A Yes, sir.

19 Q And you know Nina Stewart?

20 A Yes, sir.

21 Q How is it that you came to know Don Stewart?

22 A Through the satellite system because I was the  
23 technician for the, the company that the satellite system came  
24 from originally --

25 Q All right --

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1       A     -- so --

2       Q     -- so this visit in 1989 was not your first trip to the

3 Stewart house?

4       A     No.

5       Q     Approximately how many times had you been to the

6 Stewart house before --

7       A     One or two.

8       Q     One or two times before the visit described here?

9       A     Yes, sir, which was probably prior to the station being

10 on the air. I'd been, I'd been to the house quite a few

11 times, Mr. Shook, so many times it's hard for me to remember

12 exactly how many times I've been there for, for the former

13 resident and the Stewarts.

14       Q     Okay. So, a number of the trips were before the

15 Stewarts became owners and then there a few trips -- one or

16 two trips after the Stewarts --

17       A     Right.

18       Q     -- became owners before the trip noted here?

19       A     Right, yeah.

20       MR. SHOOK: All right. Your Honor, I have no further

21 questions.

22       JUDGE STIRMER: Mr. Dunne, do you have --

23       MR. DUNNE: No redirect, Your Honor.

24       JUDGE STIRMER: May the witness be excused?

25       MR. SHOOK: Yes.

## FREE STATE REPORTING, INC.

Court Reporting   Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 JUDGE STIRMER: Thank you very much, Mr. Meador, you're  
2 excused.

3 THE WITNESS: Thank you, sir.

4 MR. SHOOK: Your Honor, the Bureau would call Dairel  
5 Denton.

6 JUDGE STIRMER: Very well. Mr. Denton, would you  
7 please come forward -- would you come forward and be sworn?  
8 Would you please have a seat, sir? Mr. Denton, your testimony  
9 has been received in evidence in this proceeding and you've  
10 been requested for cross-examination and that is the reason  
11 why you're here today.

12 THE WITNESS: All right.

13 MR. SHOOK: Your Honor, before we proceed there is one  
14 correction we need to make.

15 JUDGE STIRMER: Very well.

16 MR. SHOOK: Mr. Denton, can you look at the spelling of  
17 your name as I had typed it up?

18 THE WITNESS: Yes, my name has a unique spelling and  
19 he's got the I and the R reversed. I've become so accustomed  
20 to it I didn't even catch it myself, but it's actually D-A-I-  
21 R-E-L.

22 MR. SHOOK: That the only correction to your testimony?

23 THE WITNESS: Yes.

24 Whereupon,

25 DAIREL DENTON

FREE STATE REPORTING, INC.

Court Reporting Depositions

Balt. & Annap. 974-0947

1 having first been duly sworn, was called as a witness herein  
2 and was examined and testified as follows:

3 CROSS-EXAMINATION

4 BY MR. DUNNE:

5 Q Good morning, Mr. Denton. I represent Calvary  
6 Educational Broadcasting in this case. I'm going to be asking  
7 you about some question -- questions about the testimony  
8 you've submitted. Our purpose here is to get accurate and  
9 truthful testimony so if you don't hear a question I, I --  
10 make to you or you don't understand the question, please stop  
11 us and we'll repeat the question or rephrase it so we can get  
12 an accurate answer. How do you pronounce your name, Mr.  
13 Denton?

14 A Dair-el.

15 Q It's pronounced Dair-el?

16 A Yes.

17 JUDGE STIRMER: I don't know how that's going to be  
18 reflected in the record, Mr. --

19 MR. DUNNE: I'm just curious, Your Honor.

20 BY MR. DUNNE:

21 Q In paragraph four of your testimony, Mr. Denton, it  
22 says, "I called -- shortly after KOKS began broadcasting I  
23 called the station to complain about my loss reception." That  
24 would have been of October of 1988, roughly?

25 A It was the fall of '88. I don't remember the

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 particular month.

2 Q Okay. When you called the station to whom did you  
3 speak, if you recall?

4 A I didn't bother to ask for a name because they said it  
5 would be better if I came by so I got in my vehicle and went  
6 to the station and an engineer followed me to my home.

7 Q Okay. The engineer, do you remember his name?

8 A No. The only thing I remember is the conversation  
9 between him and whoever was at the front desk, I presume the  
10 secretary of receptionist or something, and then the  
11 conversation he had with me. I was under the assumption that  
12 he was some type of a volunteer or something from Kentucky or  
13 something like that. I didn't really --

14 Q But now you don't recall his name?

15 A No.

16 Q Okay, and he followed you to your home?

17 A Yes.

18 Q Is that your testimony? Where is your home in -- vis-  
19 à-vis the KOKS transmitter site, Mr. Denton?

20 A Well, I don't -- I guess I really don't know how to  
21 answer that question.

22 Q Well, how far is it from the transmitter site?

23 A I don't -- I've never measured it, but when they had  
24 that map that showed the blanking -- blanket area, I was in  
25 that.

FREE STATE REPORTING, INC.

Court Reporting Depositions  
D.C. Area 261-1902  
Balt. & Annap. 974-0947

1 Q You were within the blanketing area?

2 A Yes.

3 Q I guess what I'm -- are you a close neighbor of the  
4 KOKS --

5 A Yes. I'm behind the Highway Patrol station on the  
6 other side of the highway.

7 Q And when this fellow who -- the KOKS engineer was your  
8 testimony came to your house what did he do, if anything?

9 A He pulled the TV out and changed some wires around on  
10 the back and, and tried a couple of different filters and  
11 things and nothing helped. And then after he left I realized  
12 that actually he had created a short in one my cables.

13 Q Okay. Did he work on your -- what you characterized as  
14 your large TV set?

15 A Yes.

16 Q And your testimony is that is -- was then connected to  
17 a booster?

18 A At that time, yes.

19 Q And then what happened, if anything?

20 A You mean as far as the engineer?

21 Q Well, no -- I'll rephrase that question. There came a  
22 time that you signed a document which was essentially a, a  
23 completing, did there not?

24 A Yes.

25 Q Okay, and that's reflected in page nine of your
